THE FAIR YESTERDAY.—Owing to the rain which fell yesterday the programme at the fair for the day was not carried out. The attendance was very small, of course, and it appeared to be a matter of doubt as to which was most disappointed, the crowd or Directors. CIRCUIT COURT.—This Court met yesterday at 9 A. M., Judge Caldwell presiding.

The unfinished trial of Joseph Cline, for rape, was proceeded with and conforded, the jury finding a verdict of gulliy. Cline was sentenced to 15 years' confinement in the penitentiary.

During the afternoon civil business was attended to. In the case of the Odd Fellows' Hall Association against E. Bocking, Druggist, which had been decided at the lest term of the Court in Bocking's favor, a motion for a new trial having been minde and argued at that term, the Court yesterday decided that a new trial could not be granted. This decision secures to Mr. Bocking the occupancy of his present store room for several years to come, at the same amount of rent which he has been heretofore paying, the suit having been brought for the purpose of compelling him to pay a higher rent or vacate the premises.

The Court adjourned until this morning at 9 o'clock. LAST CHANGE FOR TAX-PAYERS, Sheriff Seybold and his assistants will be at the Sheriff's office to receive from parsons living in Clay Township, State, County and School taxes, assessed against them for the year 1886, on the 1lith, 12th, and 18th days of October.

Residents of the above Township should bear in mind thast they can secure a reduction of 2½ per cent. on their state tax, by paying all their taxes at the times and places specified, or at the Sheriff's office on or before the 15th day of October.

Corner Skone.—We have been informed that the corner stone of the new St. Mathew's Episcopal Church, or Fourth street below Quincy, will be laid on Thursday the 1st of November next.

The ceremonies on the occasion will be quite interesting, and will be partitional to the control of the paying and their taxes at the state of the corner stone of the paying the corner stone of the paying the corner stone of the scene in formed that the corner stone of the paying the corner stone of the scene in the corner stone of the scene in formed that the corner stone of the scene in the scene in the corner stone of the scene in the corner stone

How to Prevent False Alarms of Fire.—The people of this goodly city are annoyed beyond endurance about beven times a week, with the furious ringing of fire bells for fires which have none but an imaginary existence. These false clarus are frequently caused by ladica of a free and easy disposition, who, having from hird of unrestricted liberty of speech and action, desire to confer a beneaft upon the community by going to jail forthirty days, and there partaking of the bounty of tax-payers. So far, the evil has not been remedied, but we have had in mind for some time a plan by which it can be effectually cared at a trifling cost. This plan we contemplate offering to the City Council through some of our Democratic friends, members of the same, and have no doubt that its aimplicity, its cheapness, and the beneficial results that would be some to the HOW TO PREVENT FALSE ALARMS OF

to the favorable consideration of that body.

Our plan is simply to let the Council furnish each fire company with a caline quadruped inheriting a fierce disposition, whose kennel shall be placed in close proximity to the bell rope, and in each hose house who shall be trained to exhibit the utmost savageness at any thing wearing a shaker bounet. The knowledge that such an animal stood ready to tear them to pieces, should they yenture over a hose house threshold, would affectually deter the boldest females from attempting to get into jail by so hard a road to travel, and, of course, would secure our citizens a little more "sleep o' nights" than they often get.

Whether this idea of ours was entertained by the members of the United Fire Company, we are unable to say, But not long since they received from an individual, calling himself Wm. Leross, but whose real name was Douglas, a promising buil pup, and this pup they prided themselves upon as much as the fondest mother does upon her darling child. They trained him daily and nightly, and we should soon have had an actual exemplification of the value of our theory, had not that most deceitful of human beings, Mr. Douglas, walked into the United Hose House one day when nobody was about, and walked off with the pup in his pocket. iss, walked into the United Hose kionse one day when nobody was about, and walked off with the pup in his pocker, We understand his walking took the direction of Fittsburgh, and if any body up there has a bull pup in training for useful purposes we advise him to keep s sharp eye upon Mr. Douglas

BILLYARDS.—This fascinating game has many devotees in our city, but quite a small proportion of good players. The number of public tables is eleven, in addition to which there are several club and private tables,—all well paterolized.

For to-day the programme as published, is the most attractive one we have ever seen for any fair, and we would urge all our readers, who have any taste for things of the kind, to go to the grounds to-day. In addition to the other attractions, Dexter and Patchen will be exhibited during the afternoon on the track.

The winner's average was within a fraction. years old and over, class 2.

Dion's leading counts were 163, 166 and 258. McDevitt's, 163, 226 and 308. This last is 32 points in excess of the next highest run in a championship game—276, made Sept. 7 by Louis Fox against John Deery. It also surpasses by 17 points the best run previously recorded as having been made in a public match for money.
